Description

You will be accompanied by a professional guide and will discover the magnificent stain glass church windows in the Swiss Jura. This day begins at 10 am in Moutier at the tourist office. You will have the option of visiting between seven and nine churches depending on which itinerary you choose. At 5 pm the guide will accompany you back to Moutier. Opinion: A very delightful day trip also giving you an insight in to the history, architecture and daily life of some of the most charming villages in the Bernese Jura.

Prices
